ROBIN DAVIS
SUPREME COURT

Nov 6, 2003

Members of the Michigan Supreme Court.

I am only one of the construction workers (50 yrs). The contractors and the makers of asbestos did not give any thoughts of dangers to our lungs when working with asbestos. I am a life 50 yr member of Local Plumbers Pipefitters 174. I have been on oxygen for the past 4 years 24 hrs a day. Asbestos has restricted my going places (vacations, reunions of any distance, Yes it is always the small man that pays (his health) and the others count their money. I do hope none of the people on the supreme court and looking the other way in regards of our misfortune. I am referring this letter in regards to the Court Rule No 2003-47.

Hope some good becomes of this for our benefit

Sincerely

Floyd J Wood msa begin,
645 Lakewood Ln C-5 MI 49441

P.S

I can't not rake leaves or
do any activity which tries me out
easily,
